Western Advocacy Symposium Grassroots Professional Network – California Statewide Survey

Survey Methodology

From Thursday, May 4 to Sunday, May 7, 2017 Probolsky Research conducted a telephone survey of California voters.

A total of 1,000 voters were surveyed. A survey of this size yields a margin of error of +/- 3.2% with a confidence level of 95%. Interviews were conducted with respondents on both landline and mobile phones (31%) and were offered in English and Spanish languages.

From Thursday, May 4 to Saturday, May 6, 2017 Probolsky Research also conducted an online poll of adult Californians concerning their sentiments involving multi-day music festivals in California. Please refer to page 21 within the presentation component of this report for a graphic illustration of these results.

Probolsky Research specializes in opinion research on behalf of corporate, government, non-profit and special interest clients.

Question: What is the most important issue facing your community today?

Answer: It is education. I'm strongly in support of the public school system and its concept. They can't put a big budget in California and then cut a lot of school funding. The private school system would not consider having a credible system like what public schools have. The public school system is underfunded. The budget is not growing. It remains stagnant. The damage that was done by the economic collapse must be repaired, but they haven't increased the funding for it.

Question: What is the most important issue facing your community today?

Answer: Actually, our problem is that we have overriding state government. Our state government has implemented a new gas tax that is going to hurt everyone. Also, we are spending money on a train that is not going to help anybody. We, the state of California, should stop logging. Our forests are very unhealthy. With our forest unhealthy, our trees have died. Because our trees have died, we have massive wildfires. Because we have massive wildfires, our insurance premiums have gone up, and many insurance companies have quit covering homes in the mountains. With the increase of the gas tax, shipping and freight will go up. Another thing is the CARB compliance for the truck does not work or is not applicable for vocational trucks.

Question: What is the most important issue facing your community today?
Answer: That is water. We need a better water transportation system, and more water storage. In other words, dams. The bullet train is going to nowhere. That needs to go to dam storage. That is pretty much it. I don't like to see more criminals. I have an issue on that. I have an issue on illegal immigrants. They're taking out the jobs of the citizens. They are willing to do work for cheaper pay, so they drive down the salaries. The money is made for what we work. Those are probably my top issues, water, crimes, and illegal immigration. The civil rights for children are taking away the rights of the parents. In other words, the children become the property of the state instead of the property of the parents. I am talking about Senate Bill 18 by Senator Pan that involves the parental rights. The children have no rights to take away the parents' rights.

Question: What is the most important issue facing your community today?
Answer: That would be health care and jobs. As for health care, the quality of the doctors is horrible. The whole government is in control of the health care system. The doctors, I've been seeing some of them, and they don't care about the patients anymore. I know a doctor who says that he doesn't care anymore, and that he is just going through the motions. He is just doing what the insurance people allow them to do. He is just doing what he is told to do. The quality of health care has gone down tremendously. We also lack jobs. People are out of work. The availability of jobs has been horrible. The market is not equitable out there. It is just a mess. It has been better just recently though, but still.

Question: What is the most important issue facing your community today?

Answer: I would say gentrification or the rising price of property values. A lot of people have been moved out from their homes or displaced from their homes. The investors are coming in and raising the property values. They are putting low-income families out of their houses. They can't pay the increase of the property taxes.
